Report on Fancy Women Bike Ride & Tweed & Tea Rides – 2025 Season

This year, Red Deer Public Library partnered with the Red Deer Association of Bicycle Commuting (RDABC) to host three themed community bike rides:

- **June Styled to Ride** – 15 participants
- **July Fancy, Strong and Free Ride** – 20 participants
- **September Tweed and Tea Ride** – 15 participants

Across the season, participants enjoyed scenic 6-7 km one-way routes designed for accessibility and visibility each time. A highlight of the September ride was a proper English tea experience at the library between rides, which created space for socializing and connection.

RDABC mechanics provided invaluable support at each ride, offering quick bike tune-ups and ensuring safe, smooth cycling for all riders. Feedback from participants has been consistently positive, with a mix of returning riders and 2–3 new participants joining each event.

Overall, the 2025 rides successfully combined cycling, style, and community building. They showcased the joy of active transportation while providing a welcoming, social space for both experienced and casual riders.

We are grateful for RDABC's ongoing partnership and look forward to building on this year's success in future ride seasons.
